Bullying Prevention Curriculum

Classroom Instructional Units for Grades 3-5 and Grades 6-8

**Expanded from the Wisconsin Clearinghouse for Prevention Resources
*Sticks n' Stones Bullying Prevention Curriculum***

Consistent with the new Wisconsin Promise of ensuring a quality education for every child, *Bullying Prevention Curriculum* focuses on a critical school prevention issue that is a barrier to student success.

Bullying is likely to negatively impact students' connections with school, their engagement with the curriculum and their overall ability to learn. Bullying prevention is critical to building a school environment conducive to learning and where students feel safe at all times.

Bullying Prevention Curriculum is an important resource for elementary and middle school teachers. In an age appropriate, multi-strategy approach these two curricular units explore the key knowledge, skills and dispositions needed to develop a school free of bullying behavior. Students will explore such issues as:

- The friend who bullies
- Ways to use comebacks that work
- Necessary skills to build a bully-free school
- Practice lessons on being a bystander that can make a difference

In addition there are helpful resources in such areas as developing policy, communicating with parents and knowing what research has to say about the impact of bullying on the victim, bystander, and perpetrator. This is a publication of immense value to anyone working with elementary or middle school students.
